DASS Project Plan v1

Team Number	49
Project Title	Booking app for Children leaning and wellness centers
Document	Project Plan
Creation Date	16th Feb, 2023
Created by	Aman Raj, Divij, Nikunj Garg, Pranav Agrawal
Client	Ikiminds

Brief Problem Statement

- This app is intended for the parents to book child activities like origami, story telling, art and craft, etc for their children.

- This app aims to make children wellness and learning centres easily accessible for the parents.

- App aims to help the franchise to manage their centre bookings, payment confirmations and accounting.

- App is required to be convenient and effortless in booking centres based on proximity to the chosen location.

Team Members

Member Name	Role in the Project
Pranav Agrawal	App Design, Research for additional features, App Development
Nikunj Garg	Document Creation, Database Management, App Development
Divij	App Design, Database Management, App Development
Aman Raj	Document Creation, Research for additional features, App Development

Team Communication

The team plans to communicate twice every week to update each other about the project. meeting offline and discussing issues on WhatsApp otherwise. We have fixed a time of meeting at Tuesday (subject to change if either party cannot make it) with the client and the meeting happens over Google Meet. We make sure that the whole team is present when having a meet with the client as well.

Development Environment

We plan to use the following tools in the course of development of our project :

1. Flutter (for app development)

2. Figma (for design)

3. MongoDB

4. Notion (for documentation)

5. GitLab (for collaborating)

6. Dart (Programming Language)

Milestone Schedule

Milestones	Due Date	Release	Deliverable?
Draft a temporary document of requirements	completed	R1	No
Finalize the requirements document	completed	R1	Yes
Map the user journey	completed	R1	Yes
Make a high level design of the app	completed	R1	Yes
Decide on what tools to use based on the design	completed	R1	Yes
Build a primitive version of the app	15th March	R1	No

Milestones	Due Date	Release	Deliverable?
Test the primitive version for bugs and glitches (fallacy in logic etc.)	1st April	R2	No
Build on the previous version to finalize a deliverable product	15th April	R2	Yes
Do a final testing for the app	20th April	R2	No
Deploy	25th April	R2	Yes
